EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

ABSTRACT

Replace the Abstract with the following:

--This invention is directed to an acid beverage composition having a pH of from 3.0 to 4.5 having (A) a hydrated protein stabilizing agent; (B) at least one flavoring material; and (C) a slurry of an aqueous protein material prepared by a process including preparing an aqueous extract from a protein containing material, adjusting the pH of same to precipitate the protein material, separating the precipitated protein and forming a suspension of same in water, adjusting the pH of the suspension to a particular pH value, and pasteurizing same.--

TITLE

Replace the title with the following:

--Acid Beverage Composition Utilizing an Aqueous Protein Component--

Examiner's Reasons for Allowance

2. The following is an examiner's statement of reasons for allowance:

The prior art of record does not disclose, teach, or suggest the instant invention as specifically claimed. In particular Huang discloses an acid beverage which must

have both high methoxyl pectin and propylene glycol alginate. Due to "consisting essentially of" language, the instant claims restrict the present of propylene glycol alginate or other components significant to modifying the product. It would not have been obvious to one having ordinary skill in the art at the time of the invention to have excluded propylene glycol alginate from the product of Huang as same is an essentially component in product of Huang.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Anthony Weier whose telephone number is 571-272-1409. The examiner can normally be reached on Tuesday-Friday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Milton Cano can be reached on 571-272-1398. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
